ABOUT US

The RightDirectionCareerConsultancy was founded with the belief that timely and thoughtful guidance can make a meaningful difference in people's lives.

Initially established as a career guidance initiative for high school students, the organisation gradually expanded after realising that individuals often require support and direction at different stages of life.

Through years of interaction with students, parents and individuals from diverse backgrounds, it became clear that guidance is not limited to academic decisions alone. People often need clarity, encouragement and mentorship to navigate different transitions and opportunities in life.

With this understanding, The Right Direction Career Consultancy evolved into a platform dedicated to guidance, training and mentoring, supporting individuals in making informed decisions and discovering their potential.

Our initiatives are designed to nurture confidence, clarity and personal growth while creating a supportive environment where individuals feel heard, understood and encouraged.

At The Right Direction Career Consultancy, guidance is not simply about giving advice it is about listening with empathy, understanding individual journeys and helping people move forward with confidence and purpose.

Through mentoring, training and thoughtful guidance, we strive to help people build meaningful and purposeful lives.

Right Direction
Estd. 2020

OUR VISION

To become a trusted guidance, training and mentoring centre that empowers individuals across different stages of life to live with clarity, confidence and purpose.

OUR MISSION

To provide ethical and empathetic guidance. To empower students to make informed career choices. To support women in building confidence and independence.

To create a supportive ecosystem where guidance meets compassion.

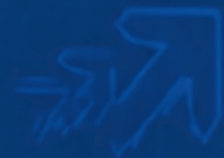

OUR MIANDATE

To provide career counselling, academic guidance, mentoring, training, educational awareness and personal development services to students, youth and individuals, and to undertake programmes supporting education, career development, entrepreneurship and community development.

Right Direction
Estd. 2020

Our Objectives

- To listen first, understand deeply and guide patiently because every person and every situation is different.
- To help students understand themselves their interests, strengths, abilities and aspirations.
- To help young people make informed choices about education, careers and their future.
- To introduce students to possibilities beyond the familiar and help them discover careers and opportunities they may not know about.
- To provide a safe and comfortable space to ask questions, express doubts and talk about their concerns without fear of judgement.
- To support women who want to learn, restart, grow or build something of their own through guidance, mentoring and encouragement.
- To help women turn their skills and ideas into meaningful opportunities, whether through employment, entrepreneurship or personal growth.
- To keep people informed through articles, journals, social media and other platforms, bringing useful information, ideas and opportunities closer to them.
- To organise meaningful programmes, workshops, conversations and activities that inspire learning, confidence and personal development.
- To work with schools and communities to make quality guidance more accessible.
- To encourage people to make their own decisions with clarity, confidence and a sense of direction.

ABOUT OUR FOUNDER

RASHMI REKHA KAKOTY

Mrs. Rashmi Rekha Kakoty is an educator, academic counsellor and career guidance professional with over 15 years of experience in the education sector. She holds a Master's degree in Management and professional certifications in career counselling, including the Global Career Counselling Certificate from UCLA Extension, Green Belt Certification in Career Counselling from Univariety, and the International Certified Career Coach Program from Mindler Education, New Delhi.

In 2020, she founded The Right Direction Career Consultancy (RDCC) with the aim of providing students with practical career guidance, mentoring and career awareness.

Her approach is simple listen first, understand the individual and then guide. She believes that students need more information; they need the right questions, a patient listener and a clear understanding of their own strengths and possibilities.

Her contribution to mentoring and career awareness was recognised with the Women's Achiever Award 2025 by the Global Talk Education Foundation.

Today, through RDCC, she continues to work with students, young people and families to help them make informed choices and move forward with greater clarity and confidence.

HATE HAT DHORI

Guidance & Mentoring for Women

HATE HAT Dhori is an initiative dedicated to supporting women in discovering their potential and building confidence. Through mentoring, guidance and skill-based support, the initiative encourages women to explore opportunities, strengthen their identity and move forward with independence and self belief.

The goal is to create a supportive environment where women feel encouraged to grow personally and professionally.

HOW DO WE PROVIDE OUR SERVICES?

RDCC provides its services through a combination of short-term programmes, workshops and continuous mentoring, depending on the needs of the individual or group.

- Workshops, Seminars and Presentations: Most of our programmes are conducted as one-day or two-day sessions. These may be organised in offline or online mode, depending on the programme and participants.

- Continuous Mentoring: Our mentoring programmes are designed as a series of sessions rather than a one-time service. Participants can continue to seek guidance as they progress through their journey.

- SARATHI: Once a student registers with SARATHI, RDCC provides continuous academic and career mentoring from the school years through the UG admission process, according to the student's needs.

- HATE HAT DIHORI: Once a woman registers with the programme, she can continue to receive mentoring and guidance throughout her entrepreneurial or professional journey. She may access the mentoring support for as long as she needs it.

- Expert-led Programme: RDCC also invites professionals and experts from different fields to conduct specialised training sessions, talks and workshops based on the requirements of our participants.

Services may be provided individually or in groups, depending on the nature of the programme.

OUR ANNUAL EVENTS & COMMUNITY INITIATIVES

1. Manifest Your Dream Through Your Talents

Manifest Your Dream Through Your Talents is an annual initiative of The Right Direction, organised every November since 2020. The programme provides students and young people with a free online platform to explore and showcase their creativity and talents.

There is no registration fee, and the programme is conducted entirely online. Participants from Assam and other regions can take part and present their work in different creative areas.

All participants receive certificates in recognition of their participation, while outstanding entries are also recognised.

The initiative is based on a simple belief: every young person has unique abilities, and the right encouragement can help them recognise and develop those abilities.

2. Late Prof. L. P. Kakoty Memorial Online Letter Writing Competition

Introduced in 2026, the Late Prof. L. P. Kakoty Memorial Online Letter Writing Competition is an annual online competition exclusively for undergraduate students studying in Assam, irrespective of their academic stream.

The competition is free of registration fees and aims to encourage students to express their thoughts clearly through letter writing while developing awareness of social issues, civic responsibility and the importance of thoughtful communication.

The competition provides undergraduate students with an opportunity to share their views, develop their writing skills and engage with issues that are relevant to society.

Right Direction

Estd. 2020

OUR COMMUNITY HELP

Along with its regular professional services and programmes, RDCC also undertakes selected free community-oriented activities whenever possible. These may include awareness sessions, educational guidance, information-sharing initiatives and programmes for students and young people who may not otherwise have easy access to such support.

Our aim is to make useful guidance and information accessible beyond our regular paid services and to contribute, in our own small way, to the community.

OUR BLOG POSTS

Since 2023, RDCC has been regularly contributing articles and educational content through different news journals and publications in Assam, as well as through various social media platforms and groups.

The articles mainly cover education, career choices, student development, career opportunities and topics of interest to young people and the community.
